English

Experience

Full Stack Developer.   *2021-2022*

- I developed a 'Book Store Application', using C# (UWP - GUI) .Net Framework.
  The app is designed to manage bookstore items.
  the app contains use of:
- inheritance, Object Oriented Programming, polymorphism, saving and
  uploading, storing the inventory by chosen filters, and Logging in with username
  and password.

- I created a program for 'Managing A Packing Box Warehouse' in C# (Console
  Application), which contains the use of Data structures, algorithms, and runtime
  efficiency.

Military Service. *2013 - 2016*
Combat Soldier in the Israeli Defense Forces.
Front command squad of the battalion(2015-2016)
Certificate of appreciation for participating in the "Tzuk Eitan" operation(2014)
Served in an armored unit as a loader & communication(2013-2015)

Education and Courses

- *Full stack software development course Sela college (2022- 2023)*
- *Rogozin High School, Electronics and Computers class (2010-2013)*
- *Web developer course Udemy (2022)*
- Horse riding instructor course at the Tel-Aviv University(2010)

About Me

*I am involved in my consciousness work, to know myself better.
It gives me the ability to deal with challenges by
looking calmly at a situation with clarity.*
